

Product Manager

Job type: Full time

Location: Peterborough

Salary: £50,000 - £70,000

Data Interchange is a leading international provider of EDI and managed services. For more than 30 years we have helped thousands of satisfied customers streamline their eBusiness solutions. Our global B2B network enables trading partners all over the world to do business electronically, providing a business-critical service for supply chain management, order processing, business integration, data synchronization and electronic funds transfers. We're looking for a bright and enthusiastic person to work in our product management team and help drive the company's product strategy and vision.

As a Data Interchange Product Manager, you'll report to the Head of Product Management and work with a great team of people across all areas of the company and beyond. You'll play a crucial role establishing and implementing our eProcurement product strategy and vision while engaging with internal stakeholders, customers, and industry bodies, during the process of defining and validating, requirements and user stories.

It's a varied role. You'll be responsible for setting priorities for the development team one moment, creating go-to-market strategies and setting out the product positioning for target customers the next. You'll work across all areas of the company, both technical and commercial, so it goes without saying that you'll need to be highly organised, versatile and driven to succeed.

This is a full-time position based in our Peterborough office, with some flexibility to work from home.

Successful applicants will need to bring with them:

- A passion for delivering innovative and world-class solutions based on sound market need
- A degree in IT/Technology or related discipline
- Product management experience within a software or IT environment
- Confident written and verbal communication
- Motivation with strong interpersonal and influencing skills
- Experience showcasing new developments with internal and external stakeholders
- A "can do" attitude with a track record of repeatedly delivering excellence
- Experience working with Software-as-a-Service solutions

We don't expect perfection, but it would be great if you also had:

- Recent experience working in eProcurement or eInvoicing
- Experience of Scrum / Agile project development
- Knowledge of the Pragmatic Marketing framework

Alongside a competitive salary and benefits, we also offer the following:

- 25 days holiday
- Pension
- Individual training budget
- Subsidised gym membership
- Regular, subsidised staff social events
- Access to Perkbox
- Free parking

If you'd like to hear more about the role you could play at Data Interchange, please forward a copy of your CV and covering letter to careers@datainterchange.com
