

Software Developer

Job type: Full time

Location: Peterborough

£25,000 - £40,000

Data Interchange is a Pioneering software house with 30 years' experience of delivering software solutions. We are looking to expand our development team due to a number of greenfield projects in addition to continuing to maintain our highly successful product range.

In this role, you will join an established team of developers working in an Agile/SCRUM environment. We have opportunities for C# Developers who have at least one years' experience and proven skills in C#, .NET and MSSQL. If you are starting out in your career, we offer coaching and training to help you work towards becoming an experienced full stack developer. If you already have an established career and are looking for a new challenge we would welcome your experience, ideas and fresh perspectives.

As a software house we pride ourselves on following industry best practices whilst remaining responsive to change and continuously strive for the optimal solution.

The successful applicants would work within the existing Development team using:

- C# - .NET 4.0 / 4.5
- SQL Server 2008 / 2012
- JavaScript / Typescript
- AngularJS (versions 1 & 2)
- ASP.NET WebAPI & MVC
- HTML / CSS
- Visual Studio & TFS

Data Interchange is a leading provider of electronic data interchange (EDI) and eBusiness integration solutions to over 4,000 global organisations, providing critical functionality for managing communications and data transformation within and beyond the enterprise.

Alongside a competitive salary and benefits, we also offer the following:

- Individual training budgets
- Company pension
- Free parking
- Regular, subsidised staff social events
- Games room
- + Other great stuff

Please note that we are not looking to use agents to recruit for this role.

To apply for this position, please forward a copy of your CV and covering letter to careers@datainterchange.com
