

# Software Implementation Consultant (German Speaking)

**Job type:** Full time

**Location:** Peterborough

**Salary:** £25,000 - £35,000

Data Interchange is a leading provider of eBusiness integration solutions to over 4,000 global organisations. We provide critical functionality for managing communications and data transformation within and beyond the enterprise. We have offices in the UK, Germany, Spain and Poland and have customers all over the world. We are seeking an Implementation Consultant to join our UK-based consultancy team.

## **Your role as Implementation Consultant:**

You will be responsible for delivering installations and upgrades of Data Interchange products to customers, either on site or remotely, as well as providing user training on our product portfolio. You will work with our clients, and other teams to plan software mapping requirements, review message specifications, and to create data conversions to ensure our customers receive a great service.

## **What will you need in becoming the successful Implementation Consultant?**

- Fluent or business German language skills
- Knowledge of IT networks and Microsoft Server (2008R2 onwards) environments
- Experience of B2B integration of CRM or ERP systems
- Ability to translate business requirements into technical specifications
- Exceptional communication skills
- Strong problem analysis skills
- Adept with Excel, Word, PowerPoint
- Highly motivated, organised and methodical with an attention to detail

## **It would be great if you also had knowledge of:**

- EDI or ERP Software
- Windows Server / Active Directory
- Microsoft SQL Server
- EDIFACT / ANSI X12 / TRADACOMS / VDA / XML message formats
- Certificate Authorities

## **Alongside a competitive salary and benefits, we also offer the following:**

- Individual training budgets
- Company pension
- Free parking
- Subsidised staff social events
- Perkbox account
- Games Room

We are looking to interview for this position immediately so if you meet the criteria above, please forward a copy of your CV and covering letter to [careers@datainterchange.com](mailto:careers@datainterchange.com)
